Today's session

Introduction

Module

Evaluation

We set out to help students solve 3 problems

Problem 1: Managing course and life goals and demands

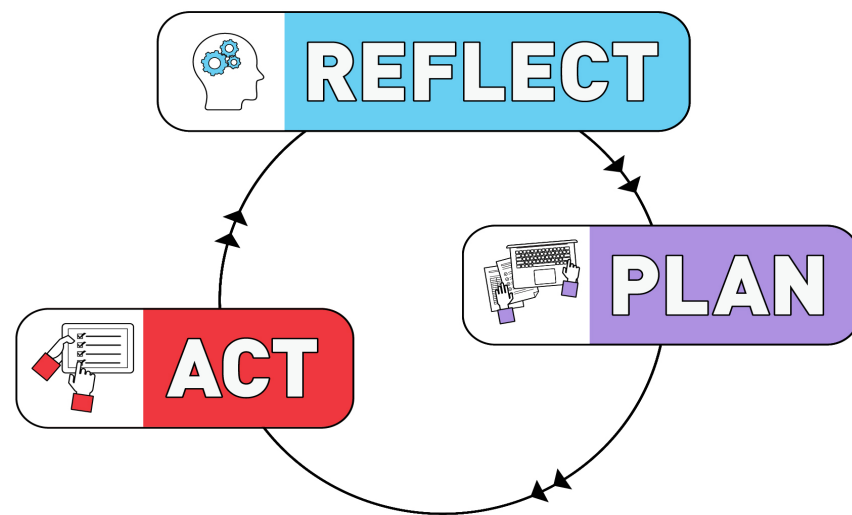

Problem 2: Dealing with failure

Problem 3: Identifying what to learn and how

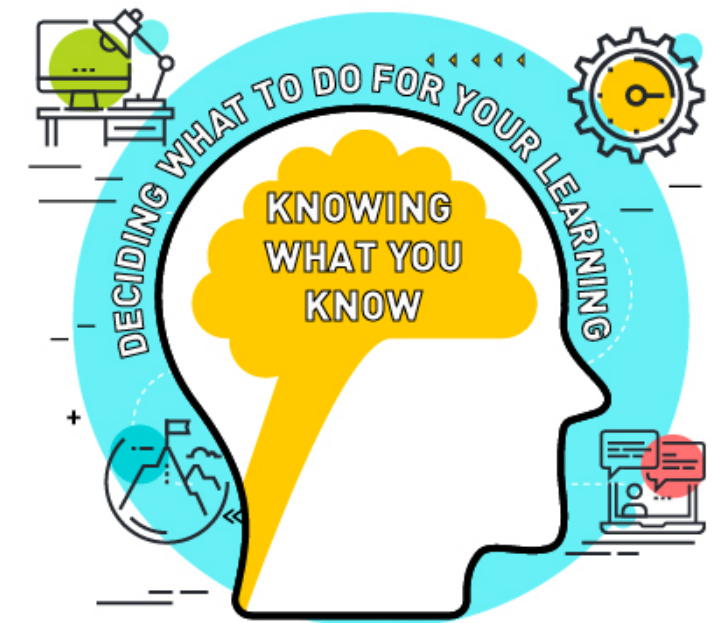

Approaches

Self-Regulated
Learning (SRL)

Growth Mindset

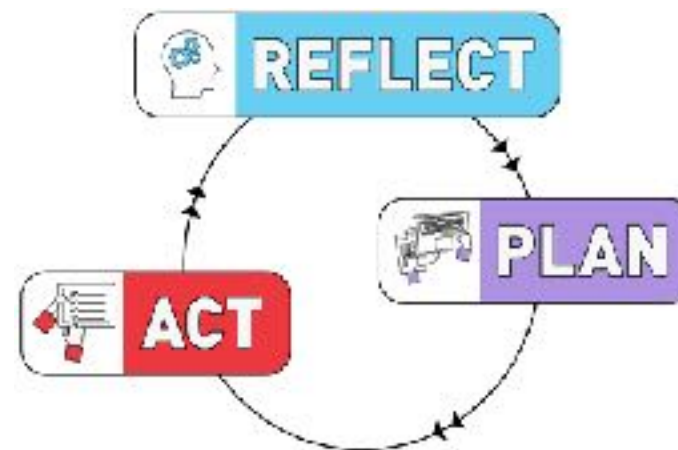

Metacognition

Logical Responses

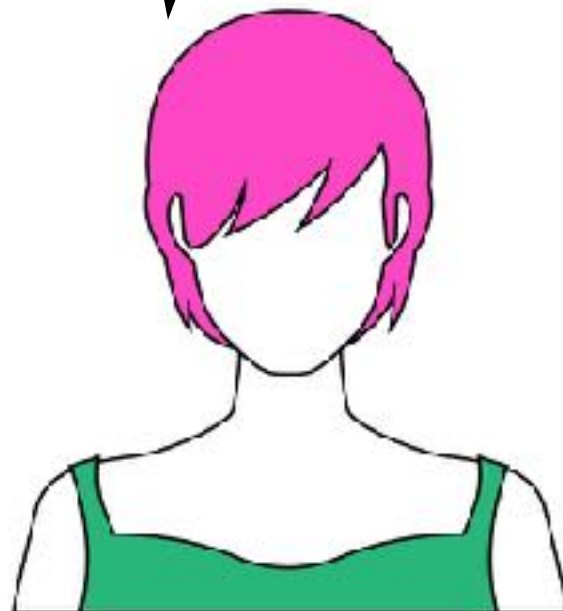

Focus Group Responses

It was hard to write down things I wasn't good at. I'm glad I did, though, because later in the module I made a plan to improve those things.

I used it more in other courses than this one, mostly the study techniques, like making a schedule.

I like that a growth mindset makes you realize that it's okay to make a mistake and fix it later on.
